REMARKS

This application covers 5,968.46 acres of ground with a decreed water right in the Bartlett Decree Under Proof No. 00172. Proof No. 00172 is broken down as follows: 2,644 acres of harvest, 1,912.06 acres of meadow pasture and 1,410.80 acres of diversified pasture.

This application covers 8,160 acres of ground which is an additional acreage of 2,192 acres to the amount of ground given a water right in the Bartlett Decree under Proof No. 00172.

The application up grades the water right of meadow pasture and diversified pasture of Proof No. 00172 to 3 acre feet thus making it possible to develop this ground to a harvest type of culture. It also increases the acreage irrigated under Proof No. 00172 by 2,192 acres which will be a harvest type of culture requiring 3 acre feet per acre.

Ground under Proof No. 00172 is decreed a water right in the amount of 11,860 acre feet. This application is for an additional 12,620 acre feet which allows the total acreage of 8,160 acres covered by the application to be developed into a harvest type of culture.

The application is for an irrigation flow for the entire 8,160 acres covered by the application of 6 c.f.s. per 100 acres of ground to be irrigated. Because of the type of ground and the characteristic flow of the Humboldt River and its tributaries the most economical irrigation head for good husbandry is 6 c.f.s. per 100 acres.

The intent of this application is to appropriate 12,620 acre feet of surplus waters of the Humboldt River. Surplus water being considered the water above the 100% decreed flow of all the prior decreed and permitted rights on the Humboldt River system to this application.

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office JUL 17 1969Returned to applicant for correction OCT 29 1969

Corrected application filed _____

Map filed _____

The applicant The 25 Corporation, Inc.
of Battle Mountain, County of Nevada

State of Nevada 89820, hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) May 31, 1969 - Nevada

1. The source of the proposed appropriation is Humboldt River
Name of stream, lake or other source.

2. The amount of water applied for is 490 c.f.s. for a total of 12,611 a.f. second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet _____ acre-feet

3. The water to be used for Irrigation and domestic
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated) 8160

(b) Stockwater (state number and kinds of animals to be watered) _____

(c) Other use (describe fully under "No. 11. Remarks") _____

(d) Power:

(1) Horsepower developed _____

(2) Point of return of water to stream _____

5. The water is to be diverted from its source at the following point: NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 25, T. 33 N.,

R. 44 E. M.D.B. & M. Proof No. 00172

Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,

it should be stated.

6. Place of use See attachment
Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about March 15 and end about September 15, of each year.
Month Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Cement Dam and private irrigation system. See Proof No. 00172

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works..... Over \$10,000
10. Estimated time required to construct works..... 5 years
11. Remarks..... See attachment
